

Annex E: Reporting Template

Use of Adult Social Care Infection Control Fund

Local authority	Waltham Forest
Allocation of Infection Control Fund received as of 26 June	£1,343,576
Allocation of Infection Control Fund dispensed as of 6th August	£1,032,210

Under the grant condition, local authorities must allocate 75% of the first month's funding straight to care homes within the local authority's geographical area on a 'per beds' basis, including to social care providers with whom the local authority does not have existing contracts.

Please confirm whether your LA allocated 75% of the first month's funding straight to care homes within the local authority's geographical area	Y
--	---

The grant conditions specify that the funding must be used for infection control measures. At least 75% of the grant funding must be used to support the measures listed within the grant conditions, while the remaining 25% may be used on other COVID19 infection control measures including payments to domiciliary care providers.

	Care Homes	Domiciliary Care	Others
Please indicate the number of providers who have received funding.	49	0	X3 extra care X39 Supported Living X9 Children's residential homes

Please indicate which measures have been used by providers as part of this funding, and the proportion of the funding dispensed to date that has been used for this

	How many providers have used funding for this purpose so far?	What proportion of the LA's allocation has been spent on this measure? Total must equal 100%
Measures to isolate residents within their own care homes	28	18.5%
Actions to restrict staff movement within care homes	30	20%
Paying staff full wages while isolating following a positive test	18	12%
Other (please indicate below)	37	24.5%
Please list other infection control measures your allocation of the Infection Control Fund has been used for. You might find it useful to refer to the measures outlined in the care home support package.	<p>Infection control training (Including additional hours for training time) Training materials Staff transport reviews PPE costs going forward Deep cleaning costs Video conferencing equipment to enable remote professional consultations – reducing external agency staff coming into the home Infection control signage Increase in domestic and cleaning staff hours Provision of changing facilities on entry/exit Cost of alternative activities in response to external activity providers no longer able to come into the home Provision of staff meals on site</p>	<p>25% LA Allocation</p> <ol style="list-style-type: none"> 1) Contingency stock of PPE in readiness to respond to an outbreak (FFP3 masks, visors and full gowns) (3%) 2) Distribution at the rate of £200 per bed for additional care settings (Supported Living, Extra Care and Residential Homes for Children) (9.5%) 3) Increase staffing capacity in the CCG infection control team (allocated but not yet dispensed) (6.25%) 4) Investment into the Frailty team to increase capacity for remote consultation and reduce the need for clinical visits, and reduced likelihood of hospital admissions (allocated but not yet dispensed) (6.25%)
