

7 August 2024

Dear Resident,

**RE: Forest Road between Hoe Street and Woodford New Road – construction update**

In November 2023, we wrote to residents with an update on the Forest Road scheme between Hoe Street and Woodford New Road. We included the results to the public consultation which took place in July 2023 in the update, and notified residents that the scheme had been approved by Waltham Forest Council and would move to the construction stage.

As this is a long section of road that represents a significant investment for the Council, we are planning to construct the scheme in sections. Therefore, we have been coordinating the construction programme with other schemes and major developments taking place in the area.

We are happy to inform you that we are planning to start construction from late September 2024, starting with the section of Forest Road between Wood Street and the railway bridge just west of Hale End Road. Following this, we will begin constructing the sections up to Beacontree Avenue or down towards Shernhall Street.

Before construction begins, we will write to residents located next to the planned work with more information.

If you have any questions about the construction work, please email [enjoy@walthamforest.gov.uk](mailto:enjoy@walthamforest.gov.uk), alternatively call Waltham Forest Direct on **020 8496 3000**.

For more information on the Forest Road scheme, to view previous letters and leaflets, and to view the final scheme map please visit:
