

Lea Bridge Road - A Street for Everyone

Section A Consultation Results - September 2015

241 responses

265 individual comments made on the proposals

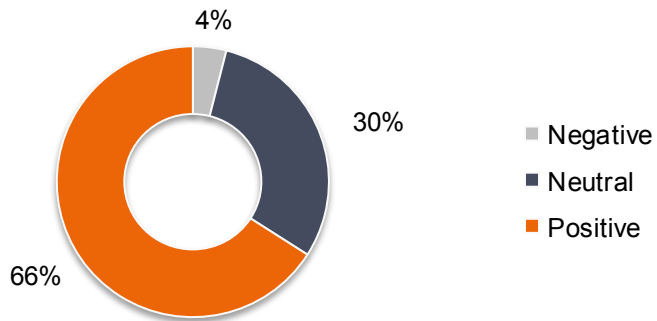

Top pieces of feedback that we received about the road improvements....

- The plans will make it better for cyclists and pedestrians.
- The floating bus stop design and operation need careful planning.
- There may be potential conflict between pedestrians and cyclists in shared space areas.
- Suggestions around how the blended crossings could be improved.
- London Borough of Hackney need to consider continuation of segregated cycle track and the dangerous entrance at the Essex Wharf development.

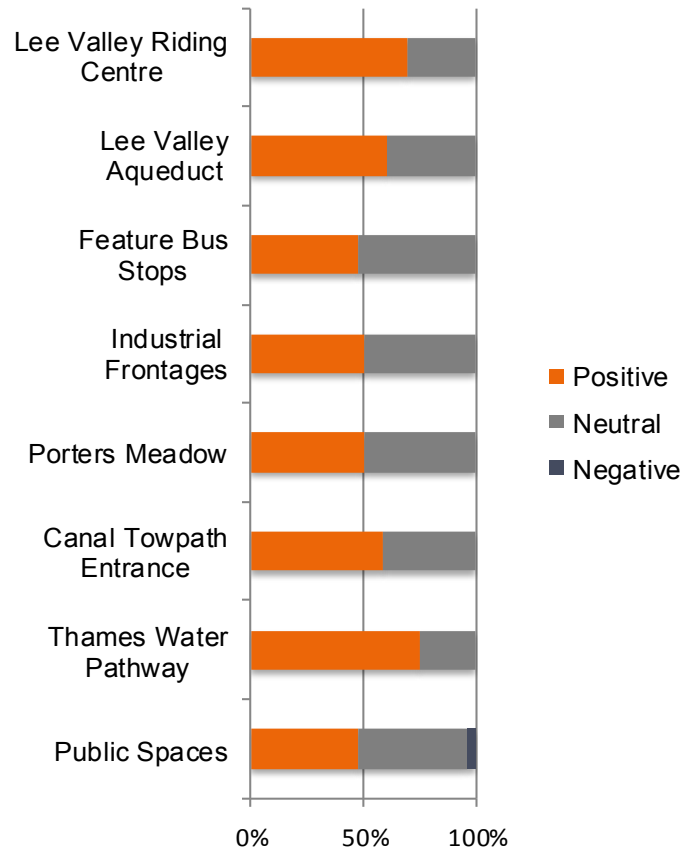

Top pieces of feedback that we received about the public space proposals....

- The plans will improve the area and create a nicer environment.
- Consideration needs to be given to bus users at the feature bus stops.
- Ensure the road is not too narrow by the industrial frontages proposal.
